### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Flam. Liq. 3, H226 Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 STOT SE 3, H335 STOT SE 3, H336 STOT RE 2, H373 Aquatic Chronic 3, H412

### **SECTION 2: Hazards identification**

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Hazard pictograms

| Signal word   | : Warning   |
|---|---|
| Hazard statements   | <ul> <li>Flammable liquid and vapor.<br/>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye irritation.</li> <li>May cause respiratory irritation.</li> <li>May cause drowsiness or dizziness.</li> <li>May cause damage to organs through prolonged or repeated exposure.</li> <li>Harmful to aquatic life with long lasting effects.</li> </ul>  |
| Precautionary statements  |   |
| Prevention  | : Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Do not breathe vapor. Wash hands thoroughly after handling.   |
| Response  | : Get medical advice or attention if you feel unwell. IF INHALED: Call a POISON<br>CENTER or doctor if you feel unwell. Take off contaminated clothing and wash it<br>before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash<br>occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for<br>several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>If eye irritation persists: Get medical advice or attention. |
| Storage   | : Store in a well-ventilated place. Keep container tightly closed. Keep cool.   |
| Disposal  | : Dispose of contents and container in accordance with all local, regional, national<br>and international regulations.  |
| Hazardous ingredients   | : Reaction mass of ethylbenzene and xylene<br>2-methoxy-1-methylethyl acetate<br>n-butyl acetate<br>Reaction mass of Bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate and Methyl<br>1,2,2,6,6-pentamethyl-4-piperidyl sebacate<br>2,3-epoxypropyl neodecanoate   |
| Supplemental label<br>elements  | : Not applicable.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Not applicable.   |
| Special packaging requirem  | <u>ients</u>  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.   |
| Tactile warning of danger   | : Not applicable.   |

### 2.3 Other hazards

### SECTION 2: Hazards identification

O 141

 Product meets the criteria
 : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

 for PBT or vPvB according
 vPvB.

 to Regulation (EC) No.
 1907/2006, Annex XIII

 Other hazards which do not result in classification
 : None known.

### **SECTION 3: Composition/information on ingredients**

| Product/ingredient name   | Identifiers   | %         | Regulation (EC) No.<br>1272/2008 [CLP]   | Туре    |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. <u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

Date of issue/Date of revision Date of previous issue

: 1-10-2022 : No previous validation

Version : 1 3/18

### **SECTION 3: Composition/information on ingredients**

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

| 4.1 Description of first aid m |   |
|--------------------------------|---|
| Eye contact                    | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
| Inhalation                     | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If it is suspected that fumes are still present, the rescuer should wear an appropriate<br>mask or self-contained breathing apparatus. If not breathing, if breathing is irregular<br>or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br>personnel. It may be dangerous to the person providing aid to give mouth-to-mouth<br>resuscitation. Get medical attention. If necessary, call a poison center or physician.<br>If unconscious, place in recovery position and get medical attention immediately.<br>Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or<br>waistband.   |
| Skin contact                   | : Wash with plenty of soap and water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the<br>event of any complaints or symptoms, avoid further exposure. Wash clothing<br>before reuse. Clean shoes thoroughly before reuse.   |
| Ingestion                      | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air<br>and keep at rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention. If necessary, call a poison center or physician. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.   |

#### 4.2 Most important symptoms and effects, both acute and delayed

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Contains Reaction mass of Bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate and Methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate, 2,3-epoxypropyl neodecanoate. May produce an allergic reaction.

#### Over-exposure signs/symptoms

| Date of issue/Date of revision | : 1-10-2022              | Version :1 |           |
|--------------------------------|--------------------------|------------|-----------|
| Date of previous issue         | : No previous validation | 4/18       | AkzoNobel |

# **SECTION 4: First aid measures**

| Eye contact  | : | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|--------------|---|---|
| Inhalation   | : | Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact | : | Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion    | : | No specific data.   |
|              |   |   |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |  |
|---------------------|---|--|
| Specific treatments | : No specific treatment.  |  |
|                     |   |  |

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |  |
|--|---|--|
| Unsuitable extinguishing<br>media                          | : Do not use water jet.   |  |
| 5.2 Special hazards arising f                              | rom the substance or mixture  |  |
| Hazards from the substance or mixture                      | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is harmful to aquatic life with long<br>lasting effects. Fire water contaminated with this material must be contained and<br>prevented from being discharged to any waterway, sewer or drain. |  |
| Hazardous combustion products                              | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |  |
| 5.3 Advice for firefighters                                |   |  |
| Special protective actions for fire-fighters               | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.  |  |
| Special protective<br>equipment for fire-fighters          | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.   |  |

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

| o. i i cioonal piccaationo, pic | teenve equipment and emergency procedures   |
|---------------------------------|---|
| For non-emergency<br>personnel  | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders        | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.  |
| 6.3 Methods and materials fo    | r containment and cleaning up   |
| Small spill                     | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-   |

combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.
 6.4 Reference to other : See Section 1 for emergency contact information.

# sectionsSee Section 8 for information on appropriate personal protective equipment.<br/>See Section 13 for additional waste treatment information.

### SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | <ul> <li>Put on appropriate personal protective equipment (see Section 8).<br/>history of skin sensitization problems should not be employed in an<br/>which this product is used. Do not get in eyes or on skin or clothing<br/>vapor or mist. Do not ingest. Avoid release to the environment. U<br/>adequate ventilation. Wear appropriate respirator when ventilation<br/>Do not enter storage areas and confined spaces unless adequately<br/>Keep in the original container or an approved alternative made from<br/>material, kept tightly closed when not in use. Store and use away f<br/>open flame or any other ignition source. Use explosion-proof elect<br/>lighting and material handling) equipment. Use only non-sparking f<br/>precautionary measures against electrostatic discharges. Empty c<br/>product residue and can be hazardous. Do not reuse container.</li> </ul> |   |   |  |
|--|--|---|---|--|
| Advice on general occupational hygiene | eating, drinking and smoking   | ed. Workers should wash han<br>Remove contaminated cloth<br>ating areas. See also Section | ids and face before<br>ing and protective |  |
| Date of issue/Date of revision         | : 1-10-2022  | Version :1  |   |  |
| Date of previous issue                 | : No previous validation   | 6/18  | AkzoNobel                                 |  |

### **SECTION 7: Handling and storage**

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

#### Seveso Directive - Reporting thresholds

#### Danger criteria

| Cat | Notification and MAPP threshold | Safety report threshold |
|-----|---------------------------------|-------------------------|
| P5c | 5000 tonne                      | 50000 tonne             |

#### 7.3 Specific end use(s)

| Recommendations           | : Not available. |

| SECTION 8: Exposure controls/personal protection |   |  |  |  |
|--|---|--|--|--|
| Respiratory protection                           | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |  |  |  |
| Environmental exposure controls                  | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |  |  |  |

### **SECTION 10: Stability and reactivity**

10.6 Hazardous

decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

| Product/ingredient name                  | Result                | Species    | Dose              | Exposure |
|--|-----------------------|------------|-------------------|----------|
| Reaction mass of ethylbenzene and xylene | LC50 Inhalation Gas.  | Rat        | 5000 ppm          | 4 hours  |
| n-butyl acetate                          | LC50 Inhalation Gas.  | Rat        | 390 ppm           | 4 hours  |
| -  | LC50 Inhalation Vapor | Mouse      | $6 \text{ g/m}^3$ | 2 hours  |
|  | LD50 Dermal           | Rabbit     | >17600 mg/kg      | -        |
|  | LD50 Intraperitoneal  | Mouse      | 1230 mg/kg        | -        |
|  | LD50 Oral             | Guinea pig | 4700 mg/kg        | -        |
|  | LD50 Oral             | Mouse      | 6 g/kg            | -        |
|  | LD50 Oral             | Rabbit     | 3200 mg/kg        | -        |
|  | LD50 Oral             | Rat        | 10768 mg/kg       | -        |
| 2,3-epoxypropyl<br>neodecanoate          | LD50 Oral             | Rat        | >10 g/kg          | -        |

#### **Conclusion/Summary** : Not available.

#### Irritation/Corrosion

| Product/ingredient name                  | Result                   | Species | Score | Exposure           | Observation |
|--|--------------------------|---------|-------|--------------------|-------------|
| Reaction mass of ethylbenzene and xylene | Eyes - Mild irritant     | Rabbit  | -     | 87 mg              | -           |
|  | Eyes - Severe irritant   | Rabbit  | -     | 24 hours 5<br>mg   | -           |
|  | Skin - Mild irritant     | Rat     | -     | 8 hours 60 UI      | -           |
|  | Skin - Moderate irritant | Rabbit  | -     | 24 hours 500<br>mg | -           |
|  | Skin - Moderate irritant | Rabbit  | -     | 100 %              | -           |
| n-butyl acetate                          | Eyes - Moderate irritant | Rabbit  | -     | 100 mg             | -           |
|  | Skin - Moderate irritant | Rabbit  | -     | 24 hours 500<br>mg | -           |
| 2,3-epoxypropyl                          | Skin - Moderate irritant | Rabbit  | -     | 0.5 MI             | -           |
| neodecanoate                             |                          |         |       |                    |             |

#### Specific target organ toxicity (repeated exposure)

| Product/ingredient name                  | Category   | Route of exposure | Target organs |
|--|------------|-------------------|---------------|
| Reaction mass of ethylbenzene and xylene | Category 2 | -                 | -             |

#### Aspiration hazard

| Product/ingredient name                  | Result                         |
|--|--------------------------------|
| Reaction mass of ethylbenzene and xylene | ASPIRATION HAZARD - Category 1 |

| Information on the likely routes of exposure | :        | Not available.  |
|--|----------|---|
| Potential acute health effects               | <u>.</u> |   |
| Eye contact                                  | :        | Causes serious eye irritation.  |
| Inhalation                                   | :        | Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation. |
| Skin contact                                 | :        | Causes skin irritation. May cause an allergic skin reaction.  |
| Ingestion                                    | :        | Can cause central nervous system (CNS) depression.  |

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact           | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|-----------------------|---|
| Inhalation            | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact          | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion             | : No specific data.   |
| Delayed and immediate | effects and also chronic effects from short and long term exposure  |

| Short term exposure            |                  |
|--------------------------------|------------------|
| Potential immediate<br>effects | : Not available. |
| Potential delayed effects      | : Not available. |
| <u>Long term exposure</u>      |                  |
| Potential immediate<br>effects | : Not available. |

### **SECTION 11: Toxicological information**

#### Potential delayed effects : Not available.

#### Potential chronic health effects

Not available.

| Conclusion/Summary    | : Not available.   |
|-----------------------|--|
| General               | <ul> <li>May cause damage to organs through prolonged or repeated exposure. Once<br/>sensitized, a severe allergic reaction may occur when subsequently exposed to very<br/>low levels.</li> </ul> |
| Carcinogenicity       | : No known significant effects or critical hazards.  |
| Mutagenicity          | : No known significant effects or critical hazards.  |
| Reproductive toxicity | : No known significant effects or critical hazards.  |
| Other information     | : Not available.   |

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

There are no data available on the mixture itself. Do not allow to enter drains or watercourses.

The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is classified for eco-toxicological properties accordingly. See Sections 2 and 3 for details.

| Product/ingredient name                  | Result   | Species  | Exposure   |
|--|--|--|--|
| Reaction mass of ethylbenzene and xylene | Acute LC50 13400 µg/l Fresh water  | Fish - Pimephales promelas   | 96 hours   |
| n-butyl acetate                          | Acute LC50 32 mg/l Marine water<br>Acute LC50 100000 µg/l Fresh water<br>Acute LC50 18000 µg/l Fresh water<br>Acute LC50 185000 µg/l Marine water<br>Acute LC50 62000 µg/l Fresh water | Crustaceans - Artemia salina<br>Fish - Lepomis macrochirus<br>Fish - Pimephales promelas<br>Fish - Menidia beryllina<br>Fish - Danio rerio | 48 hours<br>96 hours<br>96 hours<br>96 hours<br>96 hours |

**Conclusion/Summary** : Not available.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

#### 12.3 Bioaccumulative potential

| Product/ingredient name                  | LogPow | BCF         | Potential |
|--|--------|-------------|-----------|
| Reaction mass of ethylbenzene and xylene | 3.12   | 8.1 to 25.9 | low       |
| 2-methoxy-1-methylethyl acetate          | 1.2    | -           | low       |
| n-butyl acetate                          | 2.3    | -           | low       |
| 2-ethoxy-1-methylethyl acetate           | 0.76   | -           | low       |
| 2,3-epoxypropyl<br>neodecanoate          | 4.4    | -           | high      |

#### 12.4 Mobility in soil

| Soil/water partition coefficient (Koc) | : Not available. |
|--|------------------|
| Mobility                               | : Not available. |

#### 12.5 Results of PBT and vPvB assessment

| Date of issue/Date of revision | : 1-10-2022              | Version : 1 |           |
|--------------------------------|--------------------------|-------------|-----------|
| Date of previous issue         | : No previous validation | 13/18       | AkzoNobel |

### **SECTION 12: Ecological information**

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| <u>Product</u>          |  |
|-------------------------|--|
| Methods of disposal     | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
| Hazardous waste         | : The classification of the product may meet the criteria for a hazardous waste.   |
| Disposal considerations | <ul> <li>Do not allow to enter drains or watercourses.</li> <li>Dispose of according to all federal, state and local applicable regulations.</li> <li>If this product is mixed with other wastes, the original waste product code may no<br/>longer apply and the appropriate code should be assigned.</li> <li>For further information, contact your local waste authority.</li> </ul>  |

#### European waste catalogue (EWC)

The European Waste Catalogue classification of this product, when disposed of as waste, is:

| Waste code              | Waste designation  |
|-------------------------|--|
| EWC 08 01 11*           | waste paint and varnish containing organic solvents or other hazardous substances  |
| Packaging               |  |
| Methods of disposal     | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.   |
| Disposal considerations | <ul> <li>Using information provided in this safety data sheet, advice should be obtained from<br/>the relevant waste authority on the classification of empty containers.<br/>Empty containers must be scrapped or reconditioned.<br/>Dispose of containers contaminated by the product in accordance with local or<br/>national legal provisions.</li> </ul>  |
| Special precautions     | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

### **SECTION 14: Transport information**

| Aquatic Chronic 3, H412 | Calculation method    |  |  |

#### Full text of abbreviated H statements

| H226   | Flammable liquid and vapor.                              |
|--------|--|
| H304   | May be fatal if swallowed and enters airways.            |
| H312   | Harmful in contact with skin.                            |
| H315   | Causes skin irritation.                                  |
| H317   | May cause an allergic skin reaction.                     |
| H319   | Causes serious eye irritation.                           |
| H332   | Harmful if inhaled.                                      |
| H335   | May cause respiratory irritation.                        |
| H336   | May cause drowsiness or dizziness.                       |
| H341   | Suspected of causing genetic defects.                    |
| H361f  | Suspected of damaging fertility.                         |
| H373   | May cause damage to organs through prolonged or repeated |
|        | exposure.  |
| H400   | Very toxic to aquatic life.                              |
| H410   | Very toxic to aquatic life with long lasting effects.    |
| H411   | Toxic to aquatic life with long lasting effects.         |
| H412   | Harmful to aquatic life with long lasting effects.       |
| EUH066 | Repeated exposure may cause skin dryness or cracking.    |

#### Full text of classifications [CLP/GHS]

| Acute Tox. 4           | ACUTE TOXICITY - Category 4                        |
|------------------------|--|
| Aquatic Acute 1        | AQUATIC HAZARD (ACUTE) - Category 1                |
| Aquatic Chronic 1      | AQUATIC HAZARD (LONG-TERM) - Category 1            |
| Aquatic Chronic 2      | AQUATIC HAZARD (LONG-TERM) - Category 2            |
| Aquatic Chronic 3      | AQUATIC HAZARD (LONG-TERM) - Category 3            |
| Asp. Tox. 1            | ASPIRATION HAZARD - Category 1                     |
| Eye Irrit. 2           | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2    |
| Flam. Liq. 3           | FLAMMABLE LIQUIDS - Category 3                     |
| Muta. 2                | GERM CELL MUTAGENICITY - Category 2                |
| Repr. 2                | TOXIC TO REPRODUCTION - Category 2                 |
| Skin Irrit. 2          | SKIN CORROSION/IRRITATION - Category 2             |
| Skin Sens. 1           | SKIN SENSITIZATION - Category 1                    |
| Skin Sens. 1A          | SKIN SENSITIZATION - Category 1A                   |
| STOT RE 2              | SPECIFIC TARGET ORGAN TOXICITY (REPEATED           |
|                        | EXPOSURE) - Category 2                             |
| STOT SE 3              | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - |
|                        | Category 3   |
| Date of printing       | : 6 October 2022                                   |
| Date of issue/ Date of | : 1 October 2022                                   |

### **SECTION 16: Other information**

#### FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
