

# **SAFETY DATA SHEET**

FR2-55 SEMI-GLOSS BASE NIGHT BLUE AIC 5.6

#### Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

#### **Section 1. Identification** GHS product identifier : FR2-55 SEMI-GLOSS BASE NIGHT BLUE AIC 5.6 : 55980506B SDS code Relevant identified uses of the substance or mixture and uses advised against Identified uses Waterborne paint. Professional use Industrial use Uses advised against All other uses Product use : Waterborne coating for interior use. Supplier's details MAPAERO SAS 10, Avenue de la Rijole CS30098 09103 PAMIERS Cedex France e-mail address : PSRA PAMIERS@akzonobel.com Emergency telephone : +33 (0)5 34 01 34 01 +33 (0)5 61 60 23 30 number (with hours of operation)

### Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview			
Liquid.			
Blue.			
Characteristic.			
See Section 12 for enviror	nmental precautions.		
Classification of the substance or mixture	: Not classified.		
GHS label elements			
Signal word	: No signal word.		
Hazard statements	: No known significant effe	ects or critical hazards.	
Precautionary statements			
Prevention	: P262 - Do not get in eyes	s, on skin, or on clothing.	
Date of issue/Date of revision	: 19-10-2022	Version : 1.02	
Date of previous issue	: 17-10-2022	1/9	AkzoNobel

### Section 2. Hazards identification

:	Not applicable.
:	Not applicable.
:	P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
:	No known significant effects or critical hazards.
:	No known significant effects or critical hazards.
:	No known significant effects or critical hazards.
:	None known.
	::

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number
C(M)IT/MIT(3:1)	<0.0015	55965-84-9

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

### Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effects		
Eye contact	No known significant effects or critical hazards.	
Inhalation	No known significant effects or critical hazards.	
Skin contact	No known significant effects or critical hazards.	
Ingestion	No known significant effects or critical hazards.	
Over-exposure signs/symptoms		

Date of issue/Date of revision	: 19-10-2022	Version : 1.02	
Date of previous issue	: 17-10-2022	2/9	AkzoNobel

### Section 4. First aid measures

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

### See toxicological information (Section 11)

Section 5. Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	: None known.	
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.	
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides halogenated compounds metal oxide/oxides	
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.	
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>	

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

Date of issue/Date of revision	: 19-10-2022	Version : 1.02	
Date of previous issue	: 17-10-2022	3/9	AkzoNobel

### Section 6. Accidental release measures

Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

#### Precautions for safe handling

Protective measures Advice on general occupational hygiene	<ul> <li>Put on appropriate personal protective equipment (see Section 8).</li> <li>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.</li> </ul>
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# Section 8. Exposure controls/personal protection

#### **Control parameters**

Occupational exposure lim None.		
• • • • •		
Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airb ontaminants.	orne
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to energy comply with the requirements of environmental protection legislation. In seases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.	
Individual protection measu		
Hygiene measures	Vash hands, forearms and face thoroughly after handling chemical products, be pating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clore Vash contaminated clothing before reusing. Ensure that eyewash stations and afety showers are close to the workstation location.	othing.
Eye/face protection	Safety eyewear complying with an approved standard should be used when a r issessment indicates this is necessary to avoid exposure to liquid splashes, m pases or dusts. If contact is possible, the following protection should be worn, inless the assessment indicates a higher degree of protection: safety glasses ide-shields.	nists,
Skin protection		

# Date of issue/Date of revision: 19-10-2022Version: 1.02Date of previous issue: 17-10-20224/9AkzoNobel

# Section 8. Exposure controls/personal protection

-	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

# **Section 9. Physical and chemical properties**

<u>Appearance</u>		
Physical state	Liquid.	
Color	Blue.	
Odor	Characteristic.	
Odor threshold	Not available.	
рН	8	
Melting point/freezing point	Not available.	
Initial boiling point and	Not available.	
boiling range		
Flash point	Closed cup: 105°C	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or	Not available.	
explosive limits		
Vapor pressure	Not available.	
Vapor density	Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monobutyl ether).	
Density	1.202 g/cm³ *	
Solubility(ies)	Easily soluble in the following materials: cold water.	
Partition coefficient: n-octanol/ water	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Kinematic (room temperature): 4.83 cm²/s Kinematic (40°C): 2.01 cm²/s	
* turning lug figure may yon wit		

\* typical value, figure may vary with colour, etc

### Section 10. Stability and reactivity

Reactivity	: No specific test data rela	ted to reactivity available for this proc	duct or its ingredients.
Chemical stability	: The product is stable.		
Possibility of hazardous reactions	: Under normal conditions	of storage and use, hazardous react	ions will not occur.
Conditions to avoid	: No specific data.		
Date of issue/Date of revision	: 19-10-2022	Version : 1.02	
Date of previous issue	: 17-10-2022	5/9	AkzoNobel

### Section 10. Stability and reactivity

**Incompatible materials** : No specific data.

Hazardous decomposition<br/>products: Under normal conditions of storage and use, hazardous decomposition products

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### **Reproductive toxicity**

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

# Information on the likely : Not available. routes of exposure

### Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

Date of issue/Date of revision	: 19-10-2022	Version : 1.02	
Date of previous issue	: 17-10-2022	6/9	AkzoNobel

### Section 11. Toxicological information

		0
Potential immediate effects	:	Not available.
Potential delayed effects	:	Not available.
Long term exposure		
Potential immediate effects	:	Not available.
enecis		
Potential delayed effects	:	Not available.
Potential chronic health effe	ecte	<u>8</u>
Not available.		
General	:	No known significant effects or critical hazards.
Carcinogenicity	:	No known significant effects or critical hazards.
Mutagenicity	:	No known significant effects or critical hazards.
Reproductive toxicity	:	No known significant effects or critical hazards.

## Section 12. Ecological information

#### <u>Toxicity</u>

Not available.

#### Persistence/degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition	: Not available.
coefficient (Koc)	

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and

its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and

contact with soil, waterways, drains and sewers.

# Section 14. Transport information

	China	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.

Special precautions for user	:	<b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
Extinguishing media		
Suitable extinguishing media	:	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	:	None known.
Incompatible materials	:	No specific data.
Transport in bulk according to IMO instruments	:	Not available.

# Section 15. Regulatory information
