

# **SAFETY DATA SHEET**

FR2-55 SEMI-GLOSS BASE GREY BAC 705

# **Section 1. Identification**

# **GHS** product identifier

: FR2-55 SEMI-GLOSS BASE GREY BAC 705

SDS code

: 55930705B

## Recommended use of the chemical and restrictions on use

| Identified uses   |  |  |
|---|--|--|
| 🕅 aterborne paint. Pro  | fessional use Industrial use           |  |
| Restrictions on use   |  |  |
| All other uses  |  |  |
| Product use   | : Waterborne coating for interior use. |  |
| Supplier's details  |  |  |
| MAPAERO SAS<br>10, Avenue de la Rijole CS30098<br>09103 PAMIERS Cedex |  |  |

| France   | 107 |  |
|--|-----|--|
| e-mail address of person<br>responsible for this SDS | :   | PSRA_PAMIERS@akzonobel.com                   |
| Emergency telephone<br>number                        | :   | +33 (0)5 34 01 34 01<br>+33 (0)5 61 60 23 30 |

## Section 2. Hazard identification

**Classification of the** : Not classified. substance or mixture

| <u>GHS label elements</u>                           |   |   |
|---|---|---|
| Signal word   | : | No signal word.   |
| Hazard statements                                   | : | No known significant effects or critical hazards.   |
| Precautionary statements                            |   |   |
| Prevention  | : | Do not get in eyes, on skin, or on clothing.  |
| Response  | : | Not applicable.   |
| Storage   | : | Not applicable.   |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Other hazards which do not result in classification | : | None known.   |

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

| Ingredient name | %       | CAS number |
|-----------------|---------|------------|
| C(M)IT/MIT(3:1) | <0.0015 | 55965-84-9 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.  |
| Skin contact | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion    | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

#### Most important symptoms/effects, acute and delayed

#### Potential acute health effects Eye contact : No known significant effects or critical hazards. Inhalation : No known significant effects or critical hazards. Skin contact : No known significant effects or critical hazards. : No known significant effects or critical hazards. Ingestion Over-exposure signs/symptoms Eye contact : No specific data. Inhalation : No specific data. Skin contact : No specific data. Ingestion : No specific data. Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician         | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled. |
|----------------------------|--|
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.   |

#### See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising<br>from the chemical  | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

# Section 6. Accidental release measures

| Personal precautions, protec   | tiv | e equipment and emergency procedures   |
|--------------------------------|-----|--|
| For non-emergency<br>personnel | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate<br>personal protective equipment.   |
| For emergency responders       | :   | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | :   | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | nt  | ainment and cleaning up  |
| Small spill                    | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | :   | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe handling                                      |  |
|--|--|
| Protective measures  | : Put on appropriate personal protective equipment (see Section 8).  |
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

## Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

| None.                            |  |
|----------------------------------|--|
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.   |
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to ensur<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection meas       | ires   |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |
| Eye/face protection              | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.  |
| Skin protection                  |  |
| Hand protection                  | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicate this is necessary.   |
| Body protection                  | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection            | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection           | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.   |
|                                  |  |

# Section 9. Physical and chemical properties and safety characteristics

#### **Appearance**

| <u></u>   |  |
|---|--|
| Physical state  | : Liquid.  |
| Color   | : Gray.  |
| Odor  | : Characteristic.  |
| Odor threshold  | : Not available.   |
| рН  | : 8  |
| Melting point/freezing point                          | : Not available.   |
| Initial boiling point and<br>boiling range            | : Not available.   |
| Flash point   | : Closed cup: 105°C  |
| Evaporation rate                                      | : Not available.   |
| Flammability  | : Not available.   |
| Lower and upper explosion<br>limit/flammability limit | : Not available.   |
| Vapor pressure  | : Not available.   |
| Relative vapor density                                | : Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monobutyl ether).                  |
| Density   | : 17.447 g/cm <sup>3</sup>   |
| Solubility(ies)                                       | : Easily soluble in the following materials: cold water.   |
| Partition coefficient: n-octanol/<br>water            | : Not available.   |
| Auto-ignition temperature                             | : Not available.   |
| Decomposition temperature                             | : Not available.   |
| Viscosity   | : Kinematic (room temperature): 4.01 cm <sup>2</sup> /s<br>Kinematic (40°C): 2.01 cm <sup>2</sup> /s |
| Explosive properties                                  | : Not available.   |
| Oxidizing properties                                  | : Not available.   |
| Solubility in water                                   | : Not available.   |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

# Section 11. Toxicological information

## Information on toxicological effects

Acute toxicity

Not available.

### Irritation/Corrosion

Not available.

## **Sensitization**

Not available.

## **Mutagenicity**

Not available.

## **Carcinogenicity**

Not available.

## Reproductive toxicity

Not available.

## Teratogenicity

Not available.

## Specific target organ toxicity (single exposure)

Not available.

## Specific target organ toxicity (repeated exposure)

Not available.

## Aspiration hazard

Not available.

| Information on the likely routes of exposure | : | Not available.                                    |
|--|---|---|
| Potential acute health effects               |   |   |
| Eye contact                                  | : | No known significant effects or critical hazards. |
| Inhalation                                   | : | No known significant effects or critical hazards. |
| Skin contact                                 | : | No known significant effects or critical hazards. |

## Ingestion : No known significant effects or critical hazards.

## Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

## Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>     |                  |
|--------------------------------|------------------|
| Potential immediate<br>effects | : Not available. |
| Potential delayed effects      | : Not available. |
| Long term exposure             |                  |
| Potential immediate effects    | : Not available. |

# Section 11. Toxicological information

## Potential delayed effects : Not available.

Potential chronic health effects

#### Not available.

**Mutagenicity** 

| General         | : No known significant effects or critical hazards. |
|-----------------|---|
| Carcinogenicity | : No known significant effects or critical hazards. |

- : No known significant effects or critical hazards.
- **Reproductive toxicity**
- : No known significant effects or critical hazards.

# Section 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition : Not available. coefficient (K<sub>oc</sub>)

Other adverse effects : No known significant effects or critical hazards.
