

SAFETY DATA SHEET

FR2-55 SEMI-GLOSS TUK WHITE 7362 AIC 12.16

Safety data sheet according to GOST 30333-2007

	Callety data sheet according to GOOT 50000-2007
Section 1. Chem	nical product and company identification
GHS product identifier	: FR2-55 SEMI-GLOSS TUK WHITE 7362 AIC 12.16
SDS code	: 55981216K
Relevant identified uses of	of the substance or mixture and uses advised against
	Identified uses
Paint. Professional use Ind	lustrial use
	Uses advised against
All other uses	
Product use	: Waterborne coating for interior use.
Supplier's details	
MAPAERO SAS	
10, Avenue de la	•
09103 PAMIERS France	Cedex
National advisory body/	: 8-10-1-202-625-3333 / 8-10-1-202-784-4660
Poison Center (For use of by licensed medical professionals.)	

e-mail address of person : PSRA_PAMIERS@akzonobel.com

responsible for this SDS Emergency telephone : +33 (0)5 34 01 34 01 number (with hours of operation) : +33 (0)5 61 60 23 30

Section 2. Hazards identification

Classification of the subst	ance or mixture according to GOS	T 32419-2013 and GOST 32	423/24/25-2013
Classification of the substance or mixture	: FLAMMABLE LIQUIDS - Cate CHEMICALS THAT CAUSE S sensitization		hich cause skin
GHS label elements			
Hazard pictograms			
Signal word	: Warning		
Hazard statements	: Flammable liquid and vapor. May cause an allergic skin rea	action.	
Date of issue/Date of revision	: 12-10-2022	Version :1	
Date of previous issue	: No previous validation	1/11	AkzoNobel

Section 2. Hazards identification

Precautionary statements	
Prevention	: Wear protective gloves, protective clothing and eye or face protection. Keep away from flames and hot surfaces. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Avoid breathing vapor.
Response	: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Call a POISON CENTER or physician.
Storage	: Store in a well-ventilated place. Keep cool.
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.

Other hazards which do not : None known. result in classification

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number	Classification	Туре
1,3,5-Triazine-2,4,6 (1H,3H,5H)-trione, 1,3,5-tris (6-isocyanatohexyl)-, reaction products with polyethylene glycol monomethyl ether	≤10	129217-88-5	AQUATIC HAZARD (LONG-TERM) - Category 3	[1]
2-ethoxy-1-methylethyl acetate	≤10	54839-24-6	FLAMMABLE LIQUIDS - Category 3 SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - Category 3	[1]
Polyisocyanate, aliphatic	≤3	-	CHEMICALS THAT CAUSE SENSITIZATION - Chemical which cause skin sensitization	[1]
C(M)IT/MIT(3:1)	≤0.001	55965-84-9	ACUTE TOXICITY (oral) - Category 3 ACUTE TOXICITY (dermal) - Category 2 ACUTE TOXICITY (inhalation) - Category 2 SKIN CORROSION/IRRITATION - Category 1 C CHEMICALS THAT CAUSE SENSITIZATION - Chemical which cause skin sensitization AQUATIC HAZARD (ACUTE) - Category 1 AQUATIC HAZARD (LONG-TERM) - Category 1	[1]

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

<u>Type</u>

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed

Potential acute health e	effects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: May cause an allergic skin reaction.
Ingestion	: No known significant effects or critical hazards.
<u>Over-exposure signs/s</u>	ymptoms
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.
Indication of immediate	medical attention and special treatment needed, if necessary
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

_	
Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide halogenated compounds metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	 Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling		
Protective measures	t on appropriate personal protective equipment (see S tory of skin sensitization problems should not be emp ich this product is used. Do not get in eyes or on skin oid breathing vapor or mist. Use only with adequate v propriate respirator when ventilation is inadequate. Do d confined spaces unless adequately ventilated. Keep approved alternative made from a compatible materia t in use. Store and use away from heat, sparks, open urce. Use explosion-proof electrical (ventilating, lightin in the only non-sparking tools. Take precaution ectrostatic discharges. Empty containers retain product zardous. Do not reuse container.	loyed in any process in or clothing. Do not ingest. entilation. Wear o not enter storage areas o in the original container or al, kept tightly closed when flame or any other ignition ng and material handling) onary measures against
Advice on general occupational hygiene	ting, drinking and smoking should be prohibited in are ndled, stored and processed. Workers should wash h ting, drinking and smoking. Remove contaminated clo uipment before entering eating areas. See also Section prmation on hygiene measures.	ands and face before othing and protective
Conditions for safe storage, including any incompatibilities	bre in accordance with local regulations. Store in a se ea. Store in original container protected from direct su ntilated area, away from incompatible materials (see S nk. Eliminate all ignition sources. Separate from oxid ntainer tightly closed and sealed until ready for use. C ened must be carefully resealed and kept upright to pr re in unlabeled containers. Use appropriate containm ntamination. See Section 10 for incompatible materia	nlight in a dry, cool and well- Section 10) and food and izing materials. Keep containers that have been revent leakage. Do not ient to avoid environmental

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

controls	also need to keep gas, vapor or dust co limits. Use explosion-proof ventilation ofEmissions from ventilation or work proof	s to keep worker exposure to airborne d or statutory limits. The engineering controls oncentrations below any lower explosive equipment. cess equipment should be checked to ensure nvironmental protection legislation. In some eering modifications to the process
Individual protection measure	s	
Hygiene measures	eating, smoking and using the lavatory Appropriate techniques should be used Contaminated work clothing should not	to remove potentially contaminated clothing. be allowed out of the workplace. Wash Ensure that eyewash stations and safety
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.	
Skin protection		
Date of issue/Date of revision	: 12-10-2022	Version :1
		Alcohobol
Date of previous issue	: No previous validation	5/11 AkzoNobel

Section 8. Exposure controls/personal protection

-	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
Other skin protection	 Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Appearance **Physical state** : Liquid. Color : White. Odor : Characteristic. **Odor threshold** : Not available. : Not available. pН Melting point/freezing point : Not available. Initial boiling point and : Not available. boiling range : Closed cup: 59°C Flash point : Not available. **Evaporation rate** Flammability (solid, gas) : Not available. Upper/lower flammability or : Greatest known range: Lower: 1% Upper: 9.8% (2-ethoxy-1-methylethyl acetate) explosive limits Vapor pressure : Not available. : Highest known value: >1 (Air = 1) (Oxirane, 2-methyl-, polymer with oxirane, Vapor density monobutyl ether). Weighted average: 1.17 (Air = 1) Density : 1.345 g/cm³ : Insoluble in the following materials: cold water. Solubility(ies) Partition coefficient: n-octanol/ : Not available. water Auto-ignition temperature : Not available. : Not available. **Decomposition temperature** Viscosity : Kinematic (room temperature): 0.67 cm²/s Kinematic (40°C): 1.01 cm²/s

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Name	·····	Route of exposure	Target organs
2-ethoxy-1-methylethyl acetate	Category 3	-	Narcotic effects

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely : Not available.

routes of exposure

Eye contact

Potential acute health effects

: No known significant effects or critical hazards.

Date of issue/Date of revision	: 12-10-2022	Version :1	
Date of previous issue	: No previous validation	7/11	AkzoNobel

Section 11. Toxicological information

Inhalation	: No known significant effects or critical hazards.
Skin contact	: May cause an allergic skin reaction.
Ingestion	: No known significant effects or critical hazards.

Symptoms related to the phy	cal, chemical and toxicological characteristics	
Eye contact	No specific data.	
Inhalation	No specific data.	
Skin contact	Adverse symptoms may include the following: irritation redness	
Ingestion	No specific data.	
-	and also chronic effects from short and long term exposure	
<u>Short term exposure</u>		
Potential immediate effects	Not available.	
Potential delayed effects	Not available.	
<u>Long term exposure</u>		
Potential immediate effects	Not available.	
Potential delayed effects	Not available.	
Potential chronic health eff	<u>S</u>	
Not available.		
General	Once sensitized, a severe allergic reaction may occur when subsequently e to very low levels.	exposed
Carcinogenicity	No known significant effects or critical hazards.	

 Mutagenicity
 : No known significant effects or critical hazards.

Reproductive toxicity : No known significant effects or critical hazards.

Section 12. Ecological information

<u>Toxicity</u>

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
2-ethoxy-1-methylethyl acetate	0.76	-	low

Mobility in soil

: Not available.

Section 12. Ecological information

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. **Disposal methods** Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	ADR/RID	IMDG	ΙΑΤΑ
UN number	UN1263	UN1263	UN1263
UN proper shipping name	PAINT	PAINT	PAINT
Transport hazard class(es)	3	3	3
Packing group	111	Ш	
Environmental hazards	No.	No.	No.
		No.	No.

Additional information

ADR/RID IMDG		<u>Tunnel code</u> (D/E) <u>Emergency schedules</u> F-E, _S-E_
Special precautions for user	:	Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

Section 15. Regulatory information

National inventory	
Australia	: Not determined.
Canada	: At least one component is not listed.
China	: Not determined.
Europe	: Not determined.
Japan	: Japan inventory (ENCS): Not determined. Japan inventory (ISHL): Not determined.

Date of issue/Date of revision	: 12-10-2022	Version : 1	
Date of previous issue	: No previous validation	9/11	AkzoNobel

Section 15. Regulatory information

New Zealand	: Not determined.
Philippines	: Not determined.
Republic of Korea	: Not determined.
Taiwan	: Not determined.
Thailand	: Not determined.
Turkey	: Not determined.
United States	: Not determined.
Viet Nam	: Not determined.

Section 16. Other information

<u>History</u>	
Date of printing	: 31 October 2022
Date of issue/ Date of revision	: 12 October 2022

Procedure used to derive the classification

Classification	Justification
FLAMMABLE LIQUIDS - Category 3 CHEMICALS THAT CAUSE SENSITIZATION - Chemical which cause skin sensitization	On basis of test data Calculation method

Indicates information that has changed from previously issued version.

Notice to reader

FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it

Date of issue/Date of revision	: 12-10-2022	Version :1
