

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

# SAFETY DATA SHEET

FR2-55 MATT 4-8GU BASE BLACK AIC 11.1

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

# 1.1 Product identifier

Product name SDS code : FR2-55 MATT 4-8GU BASE BLACK AIC 11.1 : 55781101B

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|   | Identified uses      |  |
|---|----------------------|--|
| Waterborne paint. Professional use Industrial use |                      |  |
|   | Uses advised against |  |
| All other uses                                    |                      |  |
| Draduation  |                      |  |

**Product use** 

: Waterborne coating for interior use.

#### 1.3 Details of the supplier of the safety data sheet

MAPAERO SAS 10, Avenue de la Rijole CS30098 09103 PAMIERS Cedex France e-mail address of person : PSRA PAMIERS@akzonobel.com

responsible for this SDS

#### 1.4 Emergency telephone number

## National advisory body/Poison Center

| Telephone number   | : (0551) 19240                                 |
|--------------------|--|
| <u>Supplier</u>    |  |
| Telephone number   | : +33 (0)5 34 01 34 01<br>+33 (0)5 61 60 23 30 |
| Hours of operation | :  |

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Skin Sens. 1, H317

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

| Date of issue/Date of revision | : 21-10-2022 | Version : 1.01 |           |
|--------------------------------|--------------|----------------|-----------|
| Date of previous issue         | : 5-10-2022  | 1/15           | AkzoNobel |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 FR2-55 MATT 4-8GU BASE BLACK AIC 11.1

| FR2-55 MATT 4-8GU BASE BLACK AIC 11.1   |    |   |  |  |

# SECTION 3: Composition/information on ingredients H410 (M=100) EUH071 See Section 16 for the full text of the H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Туре</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern
- [6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

#### **SECTION 4: First aid measures**

| 4.1 Description of first aid m | neasures   |
|--------------------------------|--|
| Eye contact                    | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.   |
| Inhalation                     | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact                   | : Wash with plenty of soap and water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the<br>event of any complaints or symptoms, avoid further exposure. Wash clothing<br>before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion                      | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air<br>and keep at rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.  |

#### 4.2 Most important symptoms and effects, both acute and delayed

# **SECTION 4: First aid measures**

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Contains C(M)IT/MIT(3:1). May produce an allergic reaction.

#### **Over-exposure signs/symptoms**

| Eye contact  | : No specific data.  |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness |
| Ingestion    | : No specific data.  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|---------------------|---|
| Specific treatments | : No specific treatment.  |

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing |   | Lise an extinguishing agon   | t suitable for the surrounding fire.  |                  |
|---|---|--|---|------------------|
| media   | •   | Use an extinguishing agen  |   |                  |
| Unsuitable extinguishing media                    | :   | None known.  |   |                  |
| 5.2 Special hazards arising fi                    | ron   | n the substance or mixture   | 9   |                  |
| Hazards from the substance or mixture             | :   | In a fire or if heated, a pres   | ssure increase will occur and the conta   | ainer may burst. |
| Hazardous combustion products                     | :   | Decomposition products m<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides | ay include the following materials:   |                  |
| 5.3 Advice for firefighters                       |   |  |   |                  |
| Special protective actions for fire-fighters      | :   |  | by removing all persons from the vici<br>hall be taken involving any personal ris |                  |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |  |   |                  |
| Date of issue/Date of revision                    |   | : 21-10-2022   | Version : 1.01  |                  |
| Date of previous issue                            |   | : 5-10-2022  | 4/15  | AkzoNobel        |
|   |   |  |   |                  |

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | tective equipment and emergency procedures  |
|---------------------------------|---|
| For non-emergency<br>personnel  | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |
| For emergency responders        | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| 6.3 Methods and materials for   | r containment and cleaning up   |
| Small spill                     | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

#### **PNECs**

No PNECs available.

| 8.2 Exposure controls            |   |
|----------------------------------|---|
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Individual protection meas       | Sures   |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| Eye/face protection              | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection                  |   |
| Hand protection                  | <ul> <li>Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.</li> <li>When prolonged or frequently repeated contact may occur, a glove with a protection glove of 6 (breakthrough time &gt; 100 minutes glove with a protection time of 0 minutes glove material may be different glove by the gloves cannot be accurately estimated.</li> </ul> |
|                                  | protection class of 6 (breakthrough time >480 minutes according to EN374) is<br>recommended. Recommended gloves: Viton ® or Nitrile, thickness ≥ 0.38 mm.<br>When only brief contact is expected, a glove with protection class of 2 or higher<br>(breakthrough time >30 minutes according to EN374) is recommended.<br>Recommended gloves: Nitrile, thickness ≥ 0.12 mm.<br>Gloves should be replaced regularly and if there is any sign of damage to the glove<br>material.   |
|                                  | The performance or effectiveness of the glove may be reduced by physical/ chemical damage and poor maintenance.   |
|                                  | The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.   |
| Body protection                  | <ul> <li>Personal protective equipment for the body should be selected based on the task<br/>being performed and the risks involved and should be approved by a specialist<br/>before handling this product.</li> </ul>   |
| Other skin protection            | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |

# SECTION 8: Exposure controls/personal protection

| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |
|---------------------------------|---|
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |

# **SECTION 9: Physical and chemical properties**

| 9.1 Information on basic physical               | and chemical properties  |
|---|--|
| <u>Appearance</u>                               |  |
| Physical state                                  | : Liquid.  |
| Color   | : Black.   |
| Odor  | : Characteristic.  |
| Odor threshold                                  | : Not available.   |
| рН  | : 8  |
| Melting point/freezing point                    | : Not available.   |
| Initial boiling point and boiling range         | : Not available.   |
| Flash point                                     | : Closed cup: 105°C  |
| Evaporation rate                                | : Not available.   |
| Flammability (solid, gas)                       | : Not available.   |
| Upper/lower flammability or<br>explosive limits | : Not available.   |
| Vapor pressure                                  | : Not available.   |
| Vapor density                                   | : Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monobutyl ether).                  |
| Density   | : 1.219 g/cm <sup>3</sup>  |
| Solubility(ies)                                 | : Easily soluble in the following materials: cold water.   |
| Partition coefficient: n-octanol/<br>water      | : Not available.   |
| Auto-ignition temperature                       | : Not available.   |
| Decomposition temperature                       | : Not available.   |
| Viscosity                                       | : Kinematic (room temperature): 9.84 cm <sup>2</sup> /s<br>Kinematic (40°C): 2.01 cm <sup>2</sup> /s |

| SECTION 10: Stability and reactivity       |  |  |
|--|--|--|
| 10.1 Reactivity                            | : No specific test data related to reactivity available for this product or its ingredients. |  |
| 10.2 Chemical stability                    | : The product is stable.   |  |
| 10.3 Possibility of<br>hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.            |  |
| 10.4 Conditions to avoid                   | : No specific data.  |  |
| 10.5 Incompatible materials                | : No specific data.  |  |

| Date of issue/Date of revision | : 21-10-2022 | Version : 1.01 |           |
|--------------------------------|--------------|----------------|-----------|
| Date of previous issue         | : 5-10-2022  | 8/15           | AkzoNobel |

# **SECTION 10: Stability and reactivity**

**10.6 Hazardous** decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

| Product/ingredient name | Result                               | Species    | Dose                   | Exposure |
|-------------------------|--------------------------------------|------------|------------------------|----------|
| 2-butoxyethanol         | LC50 Inhalation Gas.                 | Mouse      | 700 ppm                | 7 hours  |
| -                       | LC50 Inhalation Gas.                 | Rat        | 450 ppm                | 4 hours  |
|                         | LC50 Inhalation Vapor                | Mouse      | 3380 mg/m <sup>3</sup> | 7 hours  |
|                         | LC50 Inhalation Vapor                | Rat        | 2900 mg/m <sup>3</sup> | 7 hours  |
|                         | LD50 Dermal                          | Guinea pig | 230 uL/kg              | -        |
|                         | LD50 Dermal                          | Rabbit     | 220 mg/kg              | -        |
|                         | LD50 Intraperitoneal                 | Mouse      | 536 mg/kg              | -        |
|                         | LD50 Intraperitoneal                 | Rabbit     | 220 mg/kg              | -        |
|                         | LD50 Intraperitoneal                 | Rat        | 220 mg/kg              | -        |
|                         | LD50 Intravenous                     | Mouse      | 1130 mg/kg             | -        |
|                         | LD50 Intravenous                     | Rabbit     | 252 mg/kg              | -        |
|                         | LD50 Intravenous                     | Rat        | 307 mg/kg              | -        |
|                         | LD50 Oral                            | Guinea pig | 1200 mg/kg             | -        |
|                         | LD50 Oral                            | Mouse      | 1230 mg/kg             | -        |
|                         | LD50 Oral                            | Mouse      | 1167 mg/kg             | -        |
|                         | LD50 Oral                            | Rabbit     | 300 mg/kg              | -        |
|                         | LD50 Oral                            | Rabbit     | 320 mg/kg              | -        |
|                         | LD50 Oral                            | Rat        | 917 mg/kg              | -        |
|                         | LD50 Oral                            | Rat        | 250 mg/kg              | -        |
|                         | LD50 Route of exposure<br>unreported | Mouse      | 1050 mg/kg             | -        |
|                         | LD50 Route of exposure<br>unreported | Rat        | 917 mg/kg              | -        |

Conclusion/Summary

: Not available.

#### Irritation/Corrosion

| Product/ingredient name       | Result   | Species | Score | Exposure     | Observation |
|-------------------------------|--|---------|-------|--------------|-------------|
| 2-butoxyethanol               | Eyes - Moderate irritant                       | Rabbit  | -     | 24 hours 100 | -           |
|                               | Even Severe irritent                           | Rabbit  |       | mg<br>100 mg |             |

# **SECTION 11: Toxicological information**

#### Aspiration hazard

Not available.

| Information on the likely routes of exposure                    | : Not available.  |
|---|---|
| Potential acute health effects                                  | <u>i</u>  |
| Eye contact   | : No known significant effects or critical hazards.   |
| Inhalation  | : No known significant effects or critical hazards.   |
| Skin contact  | : May cause an allergic skin reaction.  |
| Ingestion   | : No known significant effects or critical hazards.   |
| <u>Symptoms related to the phy</u><br>Eye contact<br>Inhalation | <ul> <li>sical, chemical and toxicological characteristics</li> <li>No specific data.</li> <li>No specific data.</li> </ul> |
| Skin contact  | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion   | : No specific data.   |

#### Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>     |            |   |
|--------------------------------|------------|---|
| Potential immediate<br>effects | : No       | ot available.   |
| Potential delayed effects      | : No       | ot available.   |
| Long term exposure             |            |   |
| Potential immediate<br>effects | : No       | ot available.   |
| Potential delayed effects      | : No       | ot available.   |
| Potential chronic health effe  | <u>cts</u> |   |
| Not available.                 |            |   |
| Conclusion/Summary             | : No       | ot available.   |
| General                        |            | nce sensitized, a severe allergic reaction may occur when subsequently exposed very low levels. |
| Carcinogenicity                | : No       | o known significant effects or critical hazards.  |
| Mutagenicity                   | : No       | o known significant effects or critical hazards.  |
| Reproductive toxicity          | : No       | o known significant effects or critical hazards.  |
|                                |            |   |

#### Other information

: Not available.

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

There are no data available on the mixture itself. Do not allow to enter drains or watercourses.

The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as hazardous to the environment, but contains substance(s) hazardous to the environment. See section 3 for details.

| Date of previous issue         | : 5-10-2022  | 10/15          | AkzoNobel |

# **SECTION 12: Ecological information**

| Product/ingredient name | Result  | Species   | Exposure                                     |
|-------------------------|---|---|--|
| 2-butoxyethanol         | Acute EC50 >1000 mg/l Fresh water<br>Acute LC50 800000 μg/l Marine water<br>Acute LC50 1490000 μg/l Fresh water<br>Acute LC50 1250000 μg/l Marine water | Crustaceans - Crangon crangon<br>Fish - Lepomis macrochirus | 48 hours<br>48 hours<br>96 hours<br>96 hours |

**Conclusion/Summary** : Not available.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

#### 12.3 Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|-----|-----------|
| 2-butoxyethanol         | 0.81   | -   | low       |

| 12.4 Mobility in soil                  |                  |
|--|------------------|
| Soil/water partition coefficient (Koc) | : Not available. |
| Mobility                               | : Not available. |

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

# **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| <u>Product</u>          |   |  |
|-------------------------|---|--|
| Methods of disposal     | : | The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
| Hazardous waste         | : | The classification of the product may meet the criteria for a hazardous waste.   |
| Disposal considerations | : | Do not allow to enter drains or watercourses.<br>Dispose of according to all federal, state and local applicable regulations.<br>If this product is mixed with other wastes, the original waste product code may no<br>longer apply and the appropriate code should be assigned.<br>For further information, contact your local waste authority.   |

#### European waste catalogue (EWC)

The European Waste Catalogue classification of this product, when disposed of as waste, is:

| Waste code   | Waste designation  |
|--------------|--|
| EWC 08 01 12 | waste paint and varnish other than those mentioned in 08 01 11 |

#### Packaging

| Date of issue/Date of revision | : 21-10-2022 | Version : 1.01 |           |
|--------------------------------|--------------|----------------|-----------|
| Date of previous issue         | : 5-10-2022  | 11/15          | AkzoNobel |

| SECTION 13: Disposal considerations |   |  |
|-------------------------------------|---|--|
| Methods of disposal                 | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |  |
| Disposal considerations             | <ul> <li>Using information provided in this safety data sheet, advice should be obtained from<br/>the relevant waste authority on the classification of empty containers.<br/>Empty containers must be scrapped or reconditioned.<br/>Dispose of containers contaminated by the product in accordance with local or<br/>national legal provisions.</li> </ul> |  |
| Special precautions                 | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.                         |  |

# **SECTION 14: Transport information**

# **SECTION 16: Other information**

#### FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
