

# **SAFETY DATA SHEET**

FR2-55 MATT 4-8GU BASE GREY BLUE 5316

### **Section 1. Identification**

#### **GHS** product identifier SDS code

: FR2-55 MATT 4-8GU BASE GREY BLUE 5316

: 55727005B

#### Relevant identified uses of the substance or mixture and uses advised against

	Identified uses	
Waterborne paint. Professi	onal use Industrial use	
Uses advised against		
All other uses		
Product use	: Waterborne coating for interior use.	
Supplier's details		
MAPAERO SAS		
10, Avenue de la Rijole CS30098		
09103 PAMIERS ( France	Cedex	
e-mail address	: PSRA_PAMIERS@akzonobel.com	
Emergency telephone	: +33 (0)5 34 01 34 01	
number (with hours of	+33 (0)5 61 60 23 30	

### Section 2. Hazards identification

**Classification of the** : Not classified. substance or mixture

operation)

GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: P262 - Do not get in eyes, on skin, or on clothing.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
Other hazards which do not result in classification	: None known.

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number
C(M)IT/MIT(3:1)	<0.0015	55965-84-9

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health	effects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
<u>Over-exposure signs/</u>	<u>symptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate	e medical attention and special treatment needed, if necessary
	—

Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide halogenated compounds metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	nt	ainment and cleaning up
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

Precautions for safe handling		
Protective measures	out on appropriate personal protective equipment (see Section 8).	
Advice on general occupational hygiene	ating, drinking and smoking should be prohibited in areas where this n andled, stored and processed. Workers should wash hands and face ating, drinking and smoking. Remove contaminated clothing and prote quipment before entering eating areas. See also Section 8 for addition formation on hygiene measures.	before ective
Conditions for safe storage, including any incompatibilities	tore in accordance with local regulations. Store in original container part or direct sunlight in a dry, cool and well-ventilated area, away from in- naterials (see Section 10) and food and drink. Keep container tightly cl ealed until ready for use. Containers that have been opened must be esealed and kept upright to prevent leakage. Do not store in unlabeled lse appropriate containment to avoid environmental contamination. Se or incompatible materials before handling or use.	compatible losed and carefully I containers.

### Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

None.		
Appropriate engineering controls	bood general ventilation should be sufficient to control worker exposure to airborn ontaminants.	ne
Environmental exposure controls	missions from ventilation or work process equipment should be checked to ensu- ney comply with the requirements of environmental protection legislation. In som ases, fume scrubbers, filters or engineering modifications to the process quipment will be necessary to reduce emissions to acceptable levels.	
Individual protection measur		
Hygiene measures	Vash hands, forearms and face thoroughly after handling chemical products, bef ating, smoking and using the lavatory and at the end of the working period. ppropriate techniques should be used to remove potentially contaminated clothin Vash contaminated clothing before reusing. Ensure that eyewash stations and afety showers are close to the workstation location.	
Eye/face protection	afety eyewear complying with an approved standard should be used when a risk ssessment indicates this is necessary to avoid exposure to liquid splashes, mist ases or dusts. If contact is possible, the following protection should be worn, nless the assessment indicates a higher degree of protection: safety glasses wi ide-shields.	S,
Skin protection		
Hand protection	chemical-resistant, impervious gloves complying with an approved standard shou e worn at all times when handling chemical products if a risk assessment indicat his is necessary.	
Body protection	ersonal protective equipment for the body should be selected based on the task eing performed and the risks involved and should be approved by a specialist efore handling this product.	
Other skin protection	ppropriate footwear and any additional skin protection measures should be elected based on the task being performed and the risks involved and should be pproved by a specialist before handling this product.	;
Respiratory protection	ased on the hazard and potential for exposure, select a respirator that meets the ppropriate standard or certification. Respirators must be used according to a espiratory protection program to ensure proper fitting, training, and other importa spects of use.	

### Section 9. Physical and chemical properties

<u>Appearance</u>		
Physical state	.iquid.	
Color	Blue.	
Odor	Characteristic.	
Odor threshold	Not available.	
рН	3	
Melting point/freezing point	Not available.	
Initial boiling point and boiling range	Not available.	
Flash point	Closed cup: 105°C	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or explosive limits	Not available.	
Vapor pressure	Not available.	
Vapor density	Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monobu ether).	ıtyl
Density	1.412 g/cm <sup>3</sup>	
Solubility(ies)	Easily soluble in the following materials: cold water.	
Partition coefficient: n-octanol/ water	lot available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Kinematic (room temperature): 8.5 cm²/s Kinematic (40°C): 2.01 cm²/s	

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 11. Toxicological information

#### Information on toxicological effects

### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

### Section 11. Toxicological information

#### Not available.

**Mutagenicity** 

Not available.

#### Carcinogenicity

Not available.

#### **Reproductive toxicity**

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

Information on the likely routes of exposure	:	Not available.
Potential acute health effects		
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.	
Inhalation	: No specific data.	
Skin contact	: No specific data.	
Ingestion	: No specific data.	

#### Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure				•
Potential immediate effects	:	Not available.		
Potential delayed effects	:	Not available.		
Long term exposure				
Potential immediate effects	:	Not available.		
Potential delayed effects	:	Not available.		
Potential chronic health effe	ect	<u>s</u>		
Not available.				
General	:	No known significant effects or critical ha	zards.	
Carcinogenicity	:	No known significant effects or critical ha	zards.	
Mutagenicity	: No known significant effects or critical hazards.			
Reproductive toxicity	:	No known significant effects or critical ha	zards.	
Date of issue/Date of revision		: 21-10-2022	/ersion	: 1.01
Date of previous issue		: 5-10-2022 6	6/9	

### Section 11. Toxicological information

### Section 12. Ecological information

#### Toxicity

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition	: Not available.
coefficient (Koc)	

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

- **Disposal methods**
- : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information					
	UN	IMDG	ΙΑΤΑ		
UN number	Not regulated.	Not regulated.	Not regulated.		
UN proper shipping name	-	-	-		
Transport hazard class(es)	-	-	-		
Packing group	-	-	-		
Environmental hazards	No.	No.	No.		

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Date of issue/Date of revision	: 21-10-2022	Version : 1.01	
Date of previous issue	: 5-10-2022	7/9	AkzoNobel

### Section 14. Transport information

Transport in bulk according : Not available. to IMO instruments

### Section 15. Regulatory information

Safety, health and<br/>environmental regulations<br/>specific for the product: Notification of Ministry of Industry: Hazard classification and Communication system<br/>for Hazardous Substances (B.E. 2555) (2012)

#### Hazardous Substance Act B.E. 2535 (1992)

<u>Type</u>

Ingredient name	<u>CAS number</u>	<u>Threshold</u>	<u>Type</u>	<u>Authority</u>	<u>Conditions</u>
ammonia, anhydrous	7664-41-7	-	3	Department of Industrial Works	-

#### <u>Ministerial Regulation on the Prescribing of Standard for Administrator, Management and Performance of</u> <u>Occupational Safety, Health and Environmental in relation to Harmful Chemicals B.E. 2556 (2013)</u>

Harmful Chemicals List : Listed

#### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

### Section 16. Other information

<u>History</u>	
Date of printing	: 31 October 2022
Date of issue/ Date of revision	: 21 October 2022
Date of previous issue	: 5 October 2022
Version	: 1.01
Unique ID	:
Key to abbreviations	: ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor GHS = Globally Harmonized System of Classification and Labelling of Chemicals IATA = International Air Transport Association IBC = International Air Transport Association IBC = International Maritime Dangerous Goods LogPow = logarithm of the octanol/water partition coefficient MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) N/A = Not available SGG = Segregation Group UN = United Nations
Procedure used to derive t	he classification

#### Procedure used to derive the classification

Date of issue/Date of revision	: 21-10-2022	Version : 1.01	
Date of previous issue	: 5-10-2022	8/9	AkzoNobel

### Section 16. Other information

#### Classification

Justification

Not classified.

Indicates information that has changed from previously issued version.

#### Notice to reader

#### FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
