# AkzoNobel

## **SAFETY DATA SHEET**

FR2-55 SEMI-GLOSS BASE NIGHT BLUE AIC 5.6

## **Section 1. Identification**

FR2-55 SEMI-GLOSS BASE NIGHT BLUE AIC 5.6 : Product identifier

55980506B : SDS code

#### Recommended use of the chemical and restrictions on use

Identified uses

Waterborne paint. Professional use Industrial use

All other uses

Waterborne coating for interior use. : Product use

Supplier's details

MAPAERO SAS 10, Avenue de la Rijole CS30098 09103 PAMIERS Cedex

France

: Importer

PSRA\_PAMIERS@akzonobel.com : e-mail address of person

responsible for this SDS

+33 (0)5 34 01 34 01 : Emergency telephone +33 (0)5 61 60 23 30

number

: Disposal

# Section 2. Hazard identification

Not classified. : Classification of the

substance or mixture

**GHS label elements** 

: Signal word No signal word.

No known significant effects or critical hazards. : Hazard statements

**Precautionary statements** 

Do not get in eyes, on skin, or on clothing. : Prevention

Not applicable. : Response

Not applicable. : Storage

Dispose of contents and container in accordance with all local, regional, national and international regulations.

None known. : Other hazards which do not

result in classification

Date of issue/Date of revision : 19-10-2022 Version: 1.02

**AkzoNobel** Date of previous issue :17-10-2022 1/9

## Section 3. Composition/information on ingredients

Mixture : Substance/mixture

CAS number	%	Ingredient name
55965-84-9	<0.0015	C(M)IT/MIT(3:1)

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

: Eye contact

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

: Inhalation

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

: Skin contact

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

: Ingestion

#### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

No known significant effects or critical hazards. : Eye contact
No known significant effects or critical hazards. : Inhalation
No known significant effects or critical hazards. : Skin contact
No known significant effects or critical hazards. : Ingestion

#### Over-exposure signs/symptoms

No specific treatment.

No specific data. : Eye contact
No specific data. : Inhalation
No specific data. : Skin contact
No specific data. : Ingestion

#### Indication of immediate medical attention and special treatment needed, if necessary

In case of inhalation of decomposition products in a fire, symptoms may be delayed. : **Notes to physician** The exposed person may need to be kept under medical surveillance for 48 hours.

: Specific treatments

No action shall be taken involving any personal risk or without suitable training.

: Protection of first-aiders

See toxicological information (Section 11)

Date of issue/Date of revision: 19-10-2022Version: 1.02

Date of previous issue :17-10-2022 2/9 AkzoNobel

## Section 5. Fire-fighting measures

#### Extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

None known.

: Suitable extinguishing media

: Unsuitable extinguishing

media

In a fire or if heated, a pressure increase will occur and the container may burst.

: Specific hazards arising from the chemical

Decomposition products may include the following materials:

carbon dioxide carbon monoxide nitrogen oxides halogenated compounds metal oxide/oxides

: Hazardous thermal decomposition products

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

: Special protective actions for fire-fighters

: Special protective equipment for fire-fighters

#### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

: For non-emergency personnel

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

: For emergency responders

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

: Environmental precautions

#### Methods and materials for containment and cleaning up

Stop leak if without risk. Move containers from spill area. Dilute with water and mop : Small spill up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, : Large spill water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Date of issue/Date of revision : 19-10-2022 Version: 1.02

**AkzoNobel** Date of previous issue :17-10-2022 3/9

## Section 7. Handling and storage

#### Precautions for safe handling

Put on appropriate personal protective equipment (see Section 8).

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

: Protective measures

: Advice on general occupational hygiene

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

: Conditions for safe storage, including any incompatibilities

## Section 8. Exposure controls/personal protection

#### Control parameters

#### Occupational exposure limits

None.

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

: Appropriate engineering controls

: Environmental exposure controls

#### Individual protection measures

Wash hands, forearms and face thoroughly after handling chemical products, before : Hygiene measures eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

: Eye/face protection

#### Skin protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

: Hand protection

: Body protection

: Other skin protection

: Respiratory protection

Date of issue/Date of revision : 19-10-2022 Version: 1.02

**AkzoNobel** Date of previous issue :17-10-2022 4/9

# Section 9. Physical and chemical properties and safety characteristics

**Appearance** 

Liquid. : Physical state

Blue. : Color Characteristic. : Odor

Not available. : Odor threshold

8 : pH

Not available. : Melting point/freezing point

Not available. : Boiling point

Closed cup: 105°C (221°F) : Flash point

Not available. : Evaporation re

Not available. : Evaporation rate

Not available. : Flammability

Not available. : Lower and upper explosion limit/flammability limit

Not available. : Vapor pressure

Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monobutyl ether). : Relative vapor density

Not available. : Relative density

Easily soluble in the following materials: cold water. : Solubility

Not available. : Partition coefficient: n-

octanol/water

Not available. : Auto-ignition temperature

Not available. : Decomposition temperature

Kinematic (room temperature): 4.83 cm²/s (483 cSt) : Viscosity Kinematic (40°C (104°F)): 2.01 cm²/s (201 cSt)

Not available. : Flow time (ISO 2431)

1.202 g/cm³ : Density

## Section 10. Stability and reactivity

No specific test data related to reactivity available for this product or its ingredients. : Reactivity

The product is stable. : Chemical stability

Under normal conditions of storage and use, hazardous reactions will not occur. : Possibility of hazardous

reactions

products

No specific data. : Conditions to avoid

No specific data. : Incompatible materials

Under normal conditions of storage and use, hazardous decomposition products : Hazardous decomposition

should not be produced.

## Section 11. Toxicological information

#### Information on toxicological effects

#### **Acute toxicity**

Not available.

#### **Irritation/Corrosion**

Not available.

Date of previous issue : 17-10-2022 5/9 AkzoNobel

## **Section 11. Toxicological information**

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### Carcinogenicity

Not available.

#### Reproductive toxicity

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

Not available. : Information on the likely

routes of exposure

#### Potential acute health effects

No known significant effects or critical hazards. : Eye contact
No known significant effects or critical hazards. : Inhalation
No known significant effects or critical hazards. : Skin contact
No known significant effects or critical hazards. : Ingestion

#### Symptoms related to the physical, chemical and toxicological characteristics

No specific data. : Eye contact
No specific data. : Inhalation
No specific data. : Skin contact
No specific data. : Ingestion

#### Delayed and immediate effects and also chronic effects from short and long term exposure

#### **Short term exposure**

Not available. : Potential immediate

effects

Not available. : Potential delayed effects

Long term exposure

Not available. : Potential immediate

effects

Not available. : Potential delayed effects

#### Potential chronic health effects

Not available.

No known significant effects or critical hazards. : General

No known significant effects or critical hazards. : Carcinogenicity

No known significant effects or critical hazards. : Mutagenicity

Date of previous issue :17-10-2022 6/9 AkzoNobel

FR2-55 SEMI-GLOSS BASE NIGHT BLUE AIC 5.6

## **Section 11. Toxicological information**

No known significant effects or critical hazards.

: Reproductive toxicity

## **Section 12. Ecological information**

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Not available.

: Soil/water partition coefficient (Koc)

No known significant effects or critical hazards.

: Other adverse effects

## Section 13. Disposal considerations

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

: Disposal methods

## **Section 14. Transport information**

IATA	IMDG	UN	
Not regulated.	Not regulated.	Not regulated.	UN number

### Section 16. Other information

#### FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
