

## **SAFETY DATA SHEET**

FR2-55 SEMI-GLOSS BASE BEIGE TAUPE 1196

#### Safety data sheet according to GOST 30333-2007

Section 1. Cher	Section 1. Chemical product and company identification		
GHS product identifier	: FR2-55 SEMI-GLOSS BASE BEIGE TAUPE 1196		
SDS code	: 55921196B		
Relevant identified uses	of the substance or mixture and uses advised against		
	Identified uses		
Waterborne paint. Profes	sional use Industrial use		
	Uses advised against		
All other uses			
Product use	: Waterborne coating for interior use.		
Supplier's details			
MAPAERO SAS			
10, Avenue de la 09103 PAMIERS	a Rijole CS30098		
France

by licensed medical professionals.)

Poison Center (For use only

Classification of the substa	ance or mixture according	to GOST 32419-2013 and GOST 3242	23/24/25-2013
Classification of the substance or mixture	: Not classified.		
GHS label elements			
Signal word	: No signal word.		
Hazard statements	: No known significant e	ffects or critical hazards.	
Precautionary statements	2		
Prevention	: Do not get in eyes, on	skin, or on clothing.	
Response	: Not applicable.		
Storage	: Not applicable.		
Disposal	: Dispose of contents ar and international regul	nd container in accordance with all loca ations.	l, regional, national
Date of issue/Date of revision	: 21-10-2022	Version : 1.01	
Date of previous issue	: 5-10-2022	1/9	AkzoNobel

## Section 2. Hazards identification

Other hazards which do not : None known. result in classification

## Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number	Classification	Туре
C(M)IT/MIT(3:1)	<0.0015	55965-84-9	ACUTE TOXICITY (oral) - Category 3 ACUTE TOXICITY (dermal) - Category 2 ACUTE TOXICITY (inhalation) - Category 2 SKIN CORROSION/IRRITATION - Category 1 C CHEMICALS THAT CAUSE SENSITIZATION - Chemical which cause skin sensitization AQUATIC HAZARD (ACUTE) - Category 1 AQUATIC HAZARD (LONG-TERM) - Category 1	[1]

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

#### <u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health eff	ects		
Eye contact	: No known significant e	ffects or critical hazards.	
Inhalation	: No known significant e	ffects or critical hazards.	
Skin contact	: No known significant e	ffects or critical hazards.	
Ingestion	: No known significant e	ffects or critical hazards.	
<u>Over-exposure signs/syn</u>	<u>nptoms</u>		
Eye contact	: No specific data.		
Inhalation	: No specific data.		
Skin contact	: No specific data.		
Date of issue/Date of revision	: 21-10-2022	Version : 1.01	
Date of previous issue	: 5-10-2022	2/9	AkzoNobel

## Section 4. First aid measures

Ingestion

: No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide halogenated compounds metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

## Section 6. Accidental release measures

Personal precautions, protec	tiv	re equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	nt	ainment and cleaning up
Small spill		Stop leak if without risk. Move containers from spill area. Dilute with water and mon

# Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br/>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br/>material and place in an appropriate waste disposal container. Dispose of via a<br/>licensed waste disposal contractor.

## Section 6. Accidental release measures

#### Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

Precautions for safe handling		
Protective measures	out on appropriate personal protective equipment (see Section 8).	
Advice on general occupational hygiene	ating, drinking and smoking should be prohibited in areas where this mate andled, stored and processed. Workers should wash hands and face befor ating, drinking and smoking. Remove contaminated clothing and protectiv quipment before entering eating areas. See also Section 8 for additional formation on hygiene measures.	ore
Conditions for safe storage, including any incompatibilities	tore in accordance with local regulations. Store in original container prote- rom direct sunlight in a dry, cool and well-ventilated area, away from incom- naterials (see Section 10) and food and drink. Keep container tightly close ealed until ready for use. Containers that have been opened must be care escaled and kept upright to prevent leakage. Do not store in unlabeled con- lse appropriate containment to avoid environmental contamination. See S or incompatible materials before handling or use.	patible d and fully ntainers.

## Section 8. Exposure controls/personal protection

#### **Control parameters**

#### Occupational exposure limits

None.

Appropriate engineering controls	:	Good general ventilation should be sur contaminants.	fficient to control worker expo	osure to airborne
Environmental exposure controls	:	Emissions from ventilation or work pro they comply with the requirements of e cases, fume scrubbers, filters or engin equipment will be necessary to reduce	environmental protection legis seering modifications to the p	slation. In some rocess
Individual protection measur	es			
Hygiene measures	:	Wash hands, forearms and face thoro eating, smoking and using the lavatory Appropriate techniques should be use Wash contaminated clothing before re safety showers are close to the workst	v and at the end of the workir d to remove potentially conta using. Ensure that eyewash	ng period. minated clothing.
Eye/face protection	:	Safety eyewear complying with an app assessment indicates this is necessar gases or dusts. If contact is possible, unless the assessment indicates a hig side-shields.	y to avoid exposure to liquid the following protection shou	splashes, mists, Ild be worn,
Skin protection				
Hand protection	:	Chemical-resistant, impervious gloves be worn at all times when handling che this is necessary.		
Body protection	:	Personal protective equipment for the being performed and the risks involved before handling this product.		
Date of issue/Date of revision		: 21-10-2022	Version : 1.01	
Date of previous issue		: 5-10-2022	4/9	AkzoNobel

## Section 8. Exposure controls/personal protection

Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

<u>Appearance</u>		
Physical state	Liquid.	
Color	White.	
Odor	Characteristic.	
Odor threshold	Not available.	
рН	8	
Melting point/freezing point	Not available.	
Initial boiling point and boiling range	Not available.	
Flash point	Closed cup: 105°C	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or explosive limits	Not available.	
Vapor pressure	Not available.	
Vapor density	Highest known value: (Oxirane, 2-methyl-, polymer with oxirane, monob ether).	outyl
Density	1.439 g/cm³	
Solubility(ies)	Easily soluble in the following materials: cold water.	
Partition coefficient: n-octanol/ water	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Kinematic (room temperature): 4.03 cm²/s Kinematic (40°C): 2.01 cm²/s	

## Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Date of issue/Date of revision	: 21-10-2022	Version : 1.01	
Date of previous issue	: 5-10-2022	5/9	AkzoNobel

## Section 11. Toxicological information

#### Information on toxicological effects

Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### Reproductive toxicity

Not available.

#### Teratogenicity

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

Information on the likely routes of exposure	:	Not available.
Potential acute health effects		
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.

#### Ingestion : No known significant effects or critical hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.

Date of issue/Date of revision	
Date of previous issue	

## Section 11. Toxicological information

#### Potential delayed effects : Not available.

Potential chronic health effects

#### Not available.

Mutagenicity

General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.

- : No known significant effects or critical hazards.
- Reproductive toxicity
- : No known significant effects or critical hazards.

## Section 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition : Not available. coefficient (K<sub>oc</sub>)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil waterways drains and sewers
	all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may

## Section 14. Transport information

	ADR/RID	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Date of issue/Date of revi		Version :1.	OT AkzoNobel
Date of previous issue	: 5-10-2022	7/9	ARZUNUDCI

## Section 14. Transport information

Packing group	-	-	-
Environmental hazards	No.	No.	No.

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

## Section 15. Regulatory information

: Not determined.
: At least one component is not listed.
: Not determined.
: Not determined.
: Japan inventory (ENCS): Not determined. Japan inventory (ISHL): Not determined.
: Not determined.
: Not determined.
: Not determined.
: Not determined.

#### Notice to reader

#### FOR PROFESSIONAL USE ONLY

IMPORTANT NOTE The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advice given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
