

SAFETY DATA SHEET

FR5-55 HARDENER

Section 1. Identification

GHS product identifier: FR5-55 HARDENERSDS code: 6500000D

Recommended use of the chemical and restrictions on use

Identified uses	
Paint. Professional us	e Industrial use
	Restrictions on use
All other uses	
Product use	: Waterborne coating for interior use.
Supplier's details	
MAPAERO SAS 10, Avenue de la Rijole CS30098 09103 PAMIERS Cedex	

France	
e-mail address of person responsible for this SDS	: PSRA_PAMIERS@akzonobel.com
Emergency telephone number	: +33 (0)5 34 01 34 01 +33 (0)5 61 60 23 30

Section 2. Hazard identification

Classification of the	: FLAMMABLE LIQUIDS - Category 4
substance or mixture	ACUTE TOXICITY (inhalation) - Category 4
	SKIN SENSITIZATION - Category 1
	SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract
	irritation) - Category 3
	AQUATIC HAZARD (LONG-TERM) - Category 3

GHS label elements

Hazard pictograms

2

Signal word :	Warning
Hazard statements :	Combustible liquid.
	May cause an allergic skin reaction.
	Harmful if inhaled.
	May cause respiratory irritation.

Harmful to aquatic life with long lasting effects.

Precautionary statements

Date of issue/Date of revision	: 6-10-2022	Version : 1.01	
Date of previous issue	: 30-9-2022	1/10	AkzoNobel

Section 2. Hazard identification		
Prevention	:	Wear protective gloves. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Avoid breathing vapor.
Response	:	IF INHALED: Call a POISON CENTER or doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention.
Storage	:	Store in a well-ventilated place. Keep container tightly closed.
Disposal	:	Dispose of contents and container in accordance with all local, regional, national and international regulations.
Other hazards which do not result in classification	:	None known.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number
Cyclohexanamine, N,N-dimethyl-, compds. with 3-(cyclohexylamino) -1-propanesulfonic acid-blocked 1,6-diisocyanatohexane homopolymer	≥25 - ≤50	666723-27-9
1,3,5-Triazine-2,4,6(1H,3H,5H)-trione, 1,3,5-tris(6-isocyanatohexyl)-, reaction products with polyethylene glycol monomethyl ether	≥10 - ≤25	129217-88-5
Polyisocyanate, aliphatic	≤10	-

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact		vater, occasionally lifting the upper and lower ontact lenses. Continue to rinse for at least 10 tion occurs.
Inhalation	If it is suspected that fumes are still pro- mask or self-contained breathing appa or if respiratory arrest occurs, provide a personnel. It may be dangerous to the resuscitation. Get medical attention. I	t rest in a position comfortable for breathing. esent, the rescuer should wear an appropriate aratus. If not breathing, if breathing is irregular artificial respiration or oxygen by trained e person providing aid to give mouth-to-mouth If necessary, call a poison center or physician. tion and get medical attention immediately. t clothing such as a collar, tie, belt or
Skin contact	Wash contaminated clothing thorough gloves. Continue to rinse for at least 1	Remove contaminated clothing and shoes. ly with water before removing it, or wear 10 minutes. Get medical attention. In the avoid further exposure. Wash clothing before reuse.
Ingestion	and keep at rest in a position comforta swallowed and the exposed person is of drink. Stop if the exposed person feels induce vomiting unless directed to do so the head should be kept low so that vo attention if adverse health effects person mouth to an unconscious person. If ur	dentures if any. Remove victim to fresh air able for breathing. If material has been conscious, give small quantities of water to s sick as vomiting may be dangerous. Do not so by medical personnel. If vomiting occurs, omit does not enter the lungs. Get medical sist or are severe. Never give anything by nconscious, place in recovery position and get an open airway. Loosen tight clothing such
Date of issue/Date of revision	: 6-10-2022	Version : 1.01
Date of previous issue	: 30-9-2022	2/10 AkzoNobel

Section 4. First aid measures

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	Harmful if inhaled. May cause respiratory irritation.
Skin contact	:	May cause an allergic skin reaction.
Ingestion	:	No known significant effects or critical hazards.
Over-exposure signs/sympto	om	<u>15</u>
Eye contact	:	No specific data.
Inhalation	:	Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	:	Adverse symptoms may include the following: irritation redness
Ingestion	:	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

Section 5. Fire-fighting measures

See toxicological information (Section 11)

		•		
Extinguishing media				
Suitable extinguishing media	:	Use dry chemical, CO ₂	, water spray (fog) or foam.	
Unsuitable extinguishin media	g :	Do not use water jet.		
Specific hazards arising from the chemical	:	if heated, a pressure in a subsequent explosion effects. Fire water con	noff to sewer may create fire or expl crease will occur and the container r n. This material is harmful to aquation taminated with this material must be ischarged to any waterway, sewer o	nay burst, with the risk of life with long lasting contained and
Hazardous thermal decomposition products		Decomposition product carbon dioxide carbon monoxide	s may include the following material	S:
Special protective actions for fire-fighters	3 :	there is a fire. No action suitable training. Move	ene by removing all persons from the n shall be taken involving any perso containers from fire area if this can p fire-exposed containers cool.	nal risk or without
Special protective equipment for fire-fighter			ar appropriate protective equipment CBA) with a full face-piece operated

1				

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. For non-emergency Evacuate surrounding areas. Keep unnecessary and unprotected personnel from personnel entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". **Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Methods and materials for containment and cleaning up

Small spill: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and
explosion-proof equipment. Dilute with water and mop up if water-soluble.
Alternatively, or if water-insoluble, absorb with an inert dry material and place in an
appropriate waste disposal container. Dispose of via a licensed waste disposal

contractor.

Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth
	and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent
	material may pose the same hazard as the spilled product. Note: see Section 1 for
	emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling Protective measures : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container. Advice on general Eating, drinking and smoking should be prohibited in areas where this material is 2 handled, stored and processed. Workers should wash hands and face before occupational hygiene eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Section 9. Physical and chemical properties and safety characteristics

Appearance

<u>, apoulation</u>	
Physical state	: Liquid.
Color	: Colorless.
Odor	: Characteristic.
Odor threshold	: Not available.
рН	: 8
Melting point/freezing point	: Not available.
Initial boiling point and	: Not available.
boiling range	
Flash point	: Closed cup: 65°C
Evaporation rate	: Not available.
Flammability	: Not available.
Lower and upper explosion limit/flammability limit	: Not available.
Vapor pressure	: Not available.
Relative vapor density	: Not available.
Relative density	: Not available.
Solubility(ies)	: Easily soluble in the following materials: cold water.
Partition coefficient: n-octanol/ water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Kinematic (room temperature): 1.57 cm ² /s Kinematic (40°C): 1.01 cm ² /s
Explosive properties	: Not available.
Oxidizing properties	: Not available.
Solubility in water	: Not available.

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Name	Category	Route of exposure	Target organs
Cyclohexanamine, N,N-dimethyl-, compds. with 3- (cyclohexylamino)-1-propanesulfonic acid-blocked 1,6-diisocyanatohexane homopolymer	Category 3	-	Respiratory tract irritation

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely	: Not available.
routes of exposure	

Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: Harmful if inhaled. May cause respiratory irritation.
Skin contact	: May cause an allergic skin reaction.
Ingestion	: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Date of issue/Date of revision	: 6-10-2022	Version : 1.01

Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health eff	ects
Not available.	
General	: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: No known significant effects or critical hazards.

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
